■ Education ■ Research ■ Industry

EDUCATION

- **PHELMA: Physics, Electronics and Materials Science School of Engineering**
- **1000 students** benefiting from outstanding training facilities and education programs
- **A European Master's degree** in Micro and Nanotechnologies

RESEARCH

- Technological and upstream research teams **working together successfully** at MINATEC
- **1600 publications & 230 new patents** per year
- **Shared platforms** opened to industrial partners and academic collaborations

INDUSTRY

- MINATEC research teams collaborating with **more than 200 industrial partners**
- Very **dynamic start-up companies** created from MINATEC laboratories
- A **unique group of technology transfer experts:** patent engineers, lawyers, marketing and international benchmarking teams
- **High-tech environment** in the Region of Grenoble
